

## BETTERBRASS

### The revolution for plain brass wires

bedra combines a better continuous casting process with better heat treatment methodologies to create an unparalleled new EDM wire: **betterbrass**. Our engineers created a brass wire electrode comprised of a completely new alloy that delivers up to 10% faster cutting speed, plug-and-play on all machine types and many more. **This electrode utilizes innovative and efficient production processes to deliver performance never before seen in a traditional brass wire.**

- Extremely reliable performance
- Plug-and-Play on all machine types
- Cuts up to 10% faster than traditional brass wire
- Innovative alloy and casting technology delivers high process performance and reliability
- Specially developed heat treatment process enhances cutting performance
- Better performance at a better price

**Faster eroding. Less wire consumption. Lower wire costs.**
