

COBRACUT® TYPE AS

Your ticket to the A-technology-class

There are many zinc-coated wire electrodes in the market. However, none have the performance potential of **cobracut®** Type A, the ORIGINAL from bedra. The products which have tried to imitate ours are now joined by an economical alternative with proven **cobracut®** Type A technology: the new **cobracut®** Type AS from Berkenhoff – your ticket to the original A class. Further features:

- Modified primary material
- Optimisation of the drawing and annealing process
- Reliable quality
- Excellent value for money

Technical data

Core	CuZn36
Coating	Zn
Tensile strength	950 MPa / 137,200PSI
Elongation	1%
Color	Bright silver

Delivery program

Diameter [mm]	0,25
K200-Spool: 16 kg	●
