

TOPAS® PLUS D

Gamma phase wire for highest demand of cutting performance and process stability on AGIE and Japanese machines

High-speed cutting electrode, further development of co**cobra**cut® Type D

- Hard gamma phase wire, specially suited for tall parts
- For machines which require straightened wires for threading

Technical data

Core	CuZn20
Coating	Zinc rich brass, double layer
Tensile strength	800 MPa / 116,000 PSI
Elongation	>1%
Color	Grey-brown

Delivery program

Diameter [mm]	0,25	0,30	0,33
bedra8-Spool: 8 kg	•	•	
bedra16-Spool: 16 kg	•	•	•
K250-Spool: 25 kg	•	•	•
K355-Spool: 45 kg	•	•	•
P5-Spool: 5 kg	•	•	
P10-Spool: 10 kg	•	•	
P15-Spool: 20 kg	•	•
